Hi Andrea,

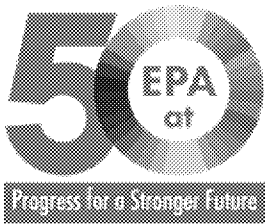

1. The GOVT RA for [Nonresponsive based on revised scope] should be the one that is targeted.
2. For [] I think if we can remove the anomaly code and target it, we should do so. This was a supplemental RA after it was transferred to the state, so that is likely why it has the code, but this is a "real" RA completion.

I copied Charlie and Kris in case they want to weigh in.

Thanks!
